PRESS RELEASE - ROYAL GIBRALTAR POLICE

The European Confederation of Police (EuroCOP) are pleased that justice has now prevailed in this case. Three former Royal Gibraltar Police officers (RGP) who faced charges of attempting to pervert the course of justice walked free from court after the Crown offered no evidence in the case.

EuroCOP call on the Governor of Gibraltar and the Chief Minister to direct an independent investigation to be carried out by police professionals that are from outside the Royal Gibraltar Police on how this case has been managed by the leadership of RGP.

The population of Gibraltar, and the officers who serve in the RGP deserve a Police Service that is not constantly in crisis due to what appears from the outside to be a failure of leadership. Surely the time has come for those who hold the constitutional and political power in Gibraltar to demonstrate leadership in this matter for the benefit of all.
