The President of the EuroCOP Executive Committee Mr. Jonne Rinne

Dear Mr. President,

We were particularly pleased to learn of EuroCOP's expression of solidarity and support for the members of our Federation on the occasion of asserting our just demands, which unfortunately are yet to be satisfied by the Greek Government.

Already, in cooperation with the other Federations of the Security and Armed Forces of our Country, we are coordinating the continuation of our fight, as long as we do not find the expected response from the Prime Minister himself Mr. Kyriakos Mitsotakis, to whom we are addressing.

With our panhellenic uniformed protest in Thessaloniki, we expressed the universal indignation of our colleagues due to the abandonment and insecurity they experience.

Your support not only strengthens us but also encourages us to continue the fight with even greater passion, not ignoring the fact that EuroCOP, with its action program, aims at a European level for the constant protection of the protectors of law and order.

Thank you.
